HOMES

We are a Winchester-based housebuilder who, whilst recently formed, have created a team which brings together a long-standing track record of delivering luxury housing throughout Hampshire. We pride ourselves on attention to detail and a strong focus on quality, which underpins our philosophy 'Built for living – valued for life'. Our style takes influence from period architecture which fits well within the traditional environment in Winchester. With a strong emphasis on our internal layouts and design, coupled with high-quality specification, our homes promote functionality and modern-day living.

Leaflands comprises four well-proportioned homes in Headbourne Worthy, a village on the outskirts of Winchester, from where there is easy access to good local amenities and the city centre. The train station is within easy reach, providing regular direct services to London Waterloo in under an hour, and there are fast connections to the major road networks across the south. Located just a couple of miles to the north of Winchester, the development provides the perfect combination of rural and urban living.
