TRANSCENDING TRADITION

These exquisite houses have the roots of their architecture based in the Regency period whilst the heart of the interior is a harmonious blend of the traditional and modern. Layered, tonal décor simultaneously demonstrates restraint but ultimate style, with nods to the period present throughout, whilst the thoughtful layout and high-end specification lend themselves to a contemporary lifestyle. All at over 2,000 sqft and set over three floors (with three plots offering the potential to install a lift), these homes will undoubtedly appeal to a broad sector of the market.

Backing on to the Royal Winchester golf course and set on the highly-desirable Chilbolton Avenue, this development provides easy access to the train station, Waitrose supermarket, the city centre, communication links and open countryside beyond; a truly spectacular offering.

UNDERSTATED ELEGANCE

As part of the distinct way that we approach our developments, we have an interior designer who is involved from the very beginning of the design process. Every aspect of each house has been meticulously considered; from the proportions and flow of the layout, the design and specification of the kitchen and the layout and materials of each bathroom, to the location of every electrical socket, the type of flooring and style of the door handles. Warm, neutral decorative tones have been used throughout, as well as a refined specification, to ensure that the rooms of the home sit alongside each other sensitively and cohesively, creating an overall ambience of understated elegance.
